- Integrated REST API and implemented responsive modern UI design.

AI Chatbot May 21, 2026
GitHub Repository

- Developed an AI-powered chatbot application using Flutter with Google Gemini 3.1 Flash Lite model.
- Integrated OpenRouter API for real-time AI response generation and conversational messaging features.
- Implemented clean UI design, reusable widgets, and responsive chat interface architecture.

Task Manager using Full API Dec 2, 2025
GitHub Repository

- Developed a full-featured task management application with authentication, task CRUD operations, and profile management.
- Implemented Provider state management for scalable and maintainable application architecture.

Recipe Book App Apr 12, 2026
GitHub Repository

- Built a recipe search and detailed view application with API integration and dynamic data loading.
- Designed reusable widgets and responsive layouts for better user experience.

Local Event Finder App May 18, 2026
GitHub Repository

- Developed an application to discover local events using dummy data (no API yet).
- Implemented clean architecture and responsive event listing interfaces.

bKash Dummy App GitHub Repository - Developed a bKash-inspired mobile UI using Flutter. - Implemented login screen and home UI sections (no API integration).	May 12, 2026
To-Do App with GetX GitHub Repository - Created a task management app using GetX state management. - Optimized simple task workflow with responsive UI.	May 7, 2026
Weather App GitHub Repository - Developed a real-time weather forecasting application using Open-Meteo API. - Displayed dynamic weather data with responsive UI.	Dec 24, 2025
YouTube Lite App GitHub Repository - Built a webview-based YouTube lite app. - Displayed YouTube content via web integration.	Mar 16, 2026
Media Player Application GitHub Repository - Built a media player application without API. - Implemented core media functionalities.	Dec 26, 2025
Simple Rest Countries Website GitHub Repository - Built REST Countries web app using HTML, CSS, JavaScript and REST API. - Features: search, filter, border navigation, dark mode, animations.	Dec 26, 2025
Simple BMI Calculator GitHub Repository Built BMI calculator supporting multiple units (cm, m, ft, in, kg, lb).	Nov 16, 2025
Movie Review App GitHub Repository - Built movie review app using Flutter + TMDB API. - Features: ratings, search, posters, responsive UI.	Jun 2026

✂ Skills

Languages: Dart, Java, C, C++, HTML, CSS

Frameworks & Technologies: Flutter, Firebase, REST API, JSON Parsing, Provider, GetX

Tools: Git, GitHub, Android Studio, Postman

Concepts: OOP, State Management, Clean Architecture, Responsive UI Design, API Integration

🌟 Certifications

Fundamental Java Course

Jan 8, 2025

View Certificate

Issued by Programming Hero
